

SYPHON

Application

- Process Plant
- Power Plant
- Chemical & Petrochemical

Purpose of Use

- To protect pressure measuring instrument excessive heating for liquids, gas or steam

Technical Details

- Material: Stainless Steel
- Connection: NPT, BSP

Features

- Metal Compact design
- Male thread end for process side and weld end on process side
- Protect pressure measuring instrument form direct heating
- U-Type for horizontal tapping
- Q-Type for vertical tapping
